

Measures to Reduce Failure to Rescue in the Postoperative Period

Promotie traject:

-*Remote Monitoring*

-TRACE

-EPOCH

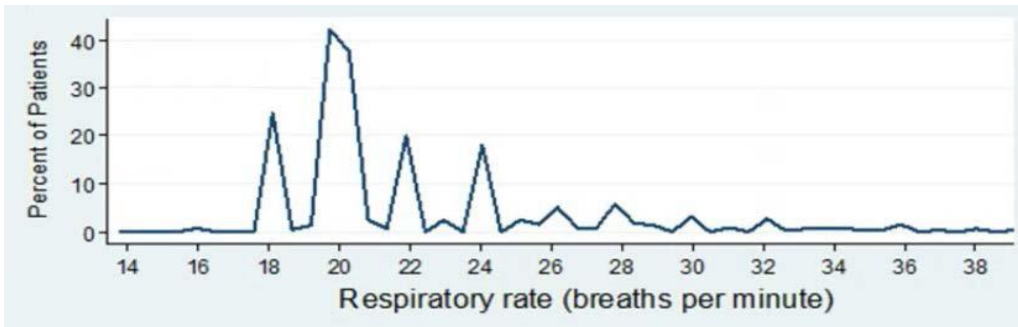

No Disclosures

Linda M. Posthuma

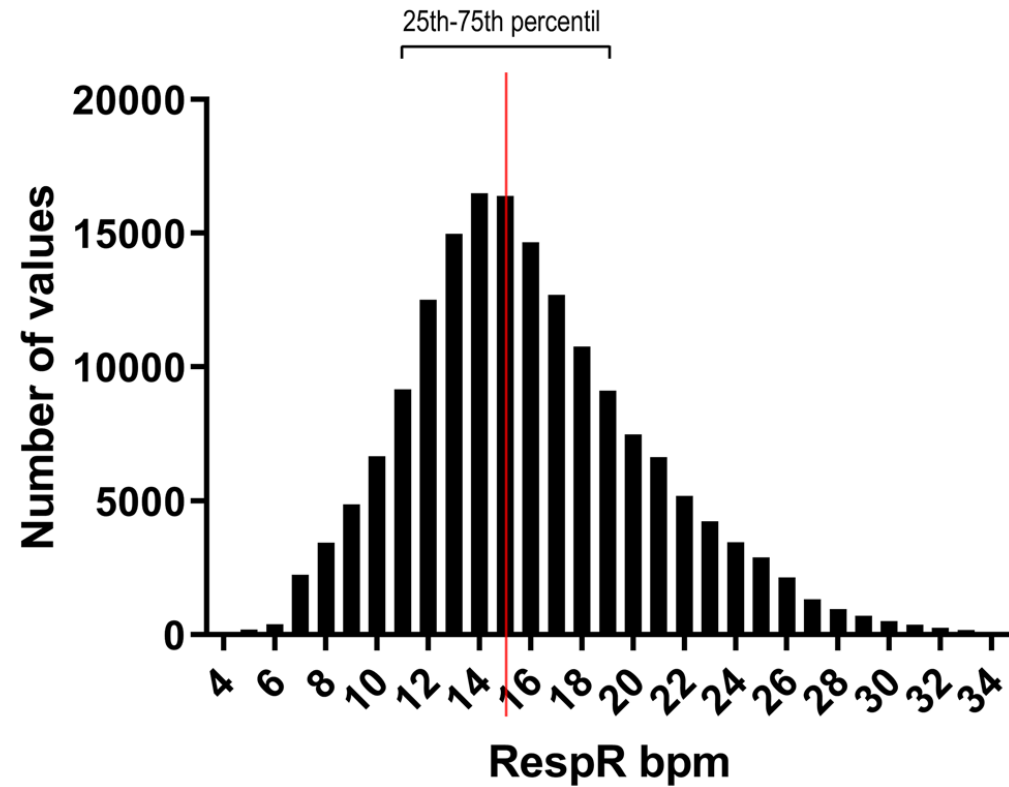

Nauwkeurigheid

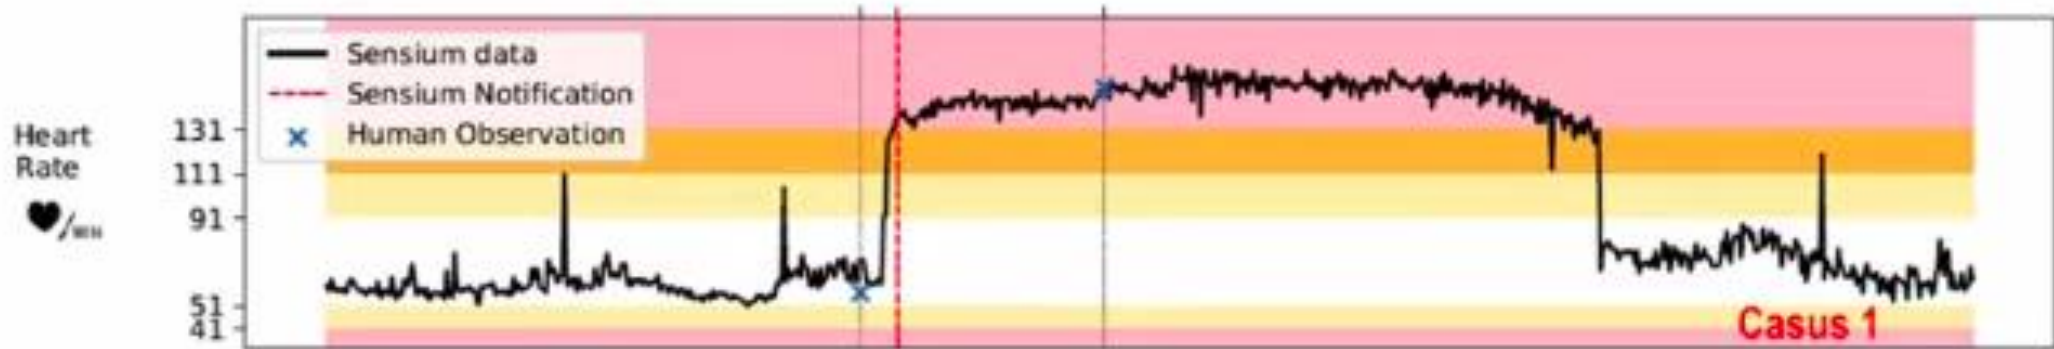

227.587 metingen
171.151 correcte metingen
75.2%

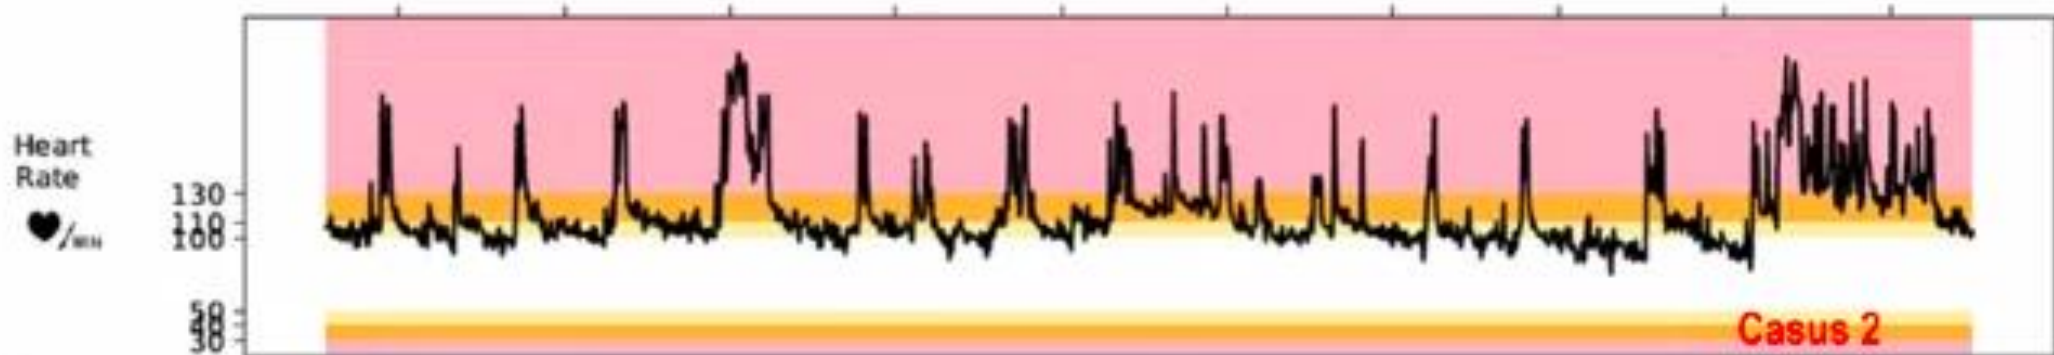

Voorbeeld

Casus 1: post-operatief AF

Casus 2: post-operatief PAF

Conclusie

- Remote monitoring meet frequent en nauwkeurig
- Verbeterd patiënt monitoring op zaal en zou 'failure to detect' kunnen verbeteren
- Grote RCT naar remote monitoring volgt
